

Azalea Trace

A warm, caring environment with private apartment rooms.

“assisted living with
memory care”

dignity and wellbeing

We respect the dignity and well being of our residents and offer daily assistance adaptable to meet individual needs.

Azalea Trace

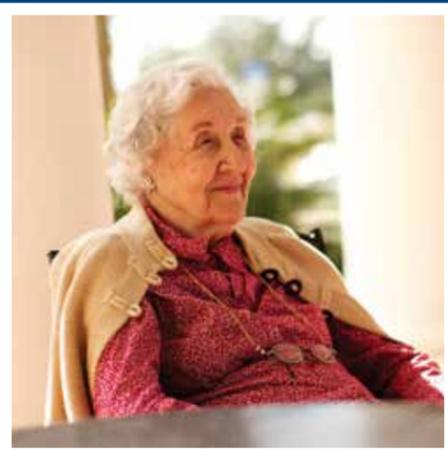

a wide range of activities

Consistent programs of daily social and physical activities are provided for all residents.

Azalea Trace

Azalea Trace allows family members to enjoy peace of mind, knowing their loved one is secure and cared for.

memory support residence

The focus of Azalea Trace is ensuring dignity and well being in a safe, home-like environment for those with memory impairment. With just 20 private rooms, the residence is ideal for providing daily individual attention, increased security and enhanced social interaction. Social and physical activities encourage the highest possible levels of function and life enjoyment, while focusing on each individual's strengths, talents and preferences. Community spaces include a residential kitchen, living room, dining room and enclosed courtyard.

amenities

To help family members plan for the future, the following services are included in one monthly fee:

- private residences with half-bath
- 24-hour healthcare staff
- all utilities except personal telephone
- housekeeping and linen service
- personal laundry
- scheduled transportation and a comprehensive daily activities program
- three meals served restaurant-style each day
- assistance with bathing, dressing and grooming as needed
- ongoing monitoring of health needs and medication management under the direction of a licensed nurse
- extended congregate care is available for an additional charge

We understand the special and often changing needs of our residents and believe in striving for the best possible quality of life for each individual. Assistance is given in a warm and caring manner under the direction of a licensed nurse with a staff dedicated to the well-being and comfort of each resident.
